screen path	Login > Register	screen name	Member sign-up_recommended person input		Writer	Nisar		
<p>The diagram illustrates a user interface flow. It starts with a main screen containing several checkboxes for terms and conditions. One checkbox for 'full consent' is checked. A blue arrow points from this screen to a layer titled '[Required] Terms of Use 1'. This layer contains a large gray area labeled 'Full Terms and Conditions' and 'output area'. At the bottom of this layer is a 'Confirm' button. A red circle with number 6 is placed near the top right corner of this layer. A blue arrow points from the bottom of this layer back to the main screen. On the main screen, there is a 'next' button at the bottom left and a 'transform' button at the bottom right. Red circles with numbers 5 and 7 are placed on the 'next' and 'transform' buttons respectively. A red circle with number 2 is placed on the 'full consent' checkbox. A red circle with number 3 is placed on the 'confirmed' status of the third term condition. A red circle with number 4 is placed on the 'confirmed' status of the fourth optional term condition. A red circle with number 5 is placed on the 'agree' button at the bottom of the main screen. A red circle with number 7 is placed on the 'X' icon in the top right corner of the main screen. A red circle with number 1 is placed on the 'View full text' button next to the first required term condition. A red circle with number 2 is placed on the 'View full text' button next to the second required term condition. A red circle with number 3 is placed on the 'View full text' button next to the third required term condition. A red circle with number 4 is placed on the 'View full text' button next to the fourth optional term condition. A red circle with number 5 is placed on the 'View full text' button next to the fifth optional term condition.</p>	<b>List of terms and conditions</b> <ul style="list-style-type: none"> <li>- Individual selection possible</li> <li>- When selected, a pop-up call for the full text of terms and conditions</li> <li>- need for supply</li> </ul>	One

3	SOT sale							SOT sale - when selected finger rate website move to
4	item							item - when selected Marketplace Item go to screen
5	Coming soon							hideOut - Future development area not selectable
6	HideOut							Favorite Item The 5 most-requested products are displayed first.
7	Swipe to print product list							Move to the preview screen when selecting a product area If you swipe all the way to the end, the More button is exposed
8	side scroll							More button When selected, it moves to the Marketplace_Wishlist screen.
9	View more							back button Go to previous screen when selected
10	ICON	ICON	ICON	ICON	ICON	ICON		Category button - Default: Choose one outfit - Sort by default by Wish List - Move to the preview screen when selecting a product area
11	my SoM	5,000 SoM	ICON					sort filter - Selection group: newest, oldest, alphabetical - The most recent and oldest are reflected by the point of view
12	SOT sale	my wallet	my page					my own SoM Current SoM Outputs
13	ICON	ICON	ICON					shopping cart icon Go to shopping cart screen when selected If there is no item registered in the shopping cart, even if you select no response

**Category button**

- Default: Choose one outfit
- Items are sorted according to the latest order by default
- Item Priority Exposure Order in Default Sorting State: Hot Eye
- Item > New Item > Newest item 7 days ago
- Even if a filter is applied, hot items are always exposed first
- Move to the preview screen when selecting a product area

**sort filter**

- 2 - Selection group: Newest, Oldest, Popularity, Alphabetical
- When the item was registered, the newest and oldest are reflected

**HOT label**

- 3 - The most purchased products are labeled as HOT
- Two labels are exposed at the same time for new and most purchased products

**NEW label**

- 4 - Products that have been registered within 7 days are labeled as NEW

**wish icon**

- 5 - When selected, it is made to wish list, and the product is also displayed on the wished item screen.
- exposed
- When you reselect, the wish list is canceled and the item is a wished item.
- disappear from the screen

**Discussion**

One

**my avatar**

- When selecting an item, it is reflected in real time, so you can preview the wear

clothing category button

- Default selection category: suit
- When selecting content with a suit, top, pants, skirt, and shoes reflected in the avatar preview area
- Pants category when selecting a top while wearing a suit Lee's first outfit is selected by default
- If you choose one outfit while wearing a top/bottom, top/bottom Selected clothing in category is deselected
- When selecting an item, the outline of the item is emphasized
- single choice

2

**item being worn**

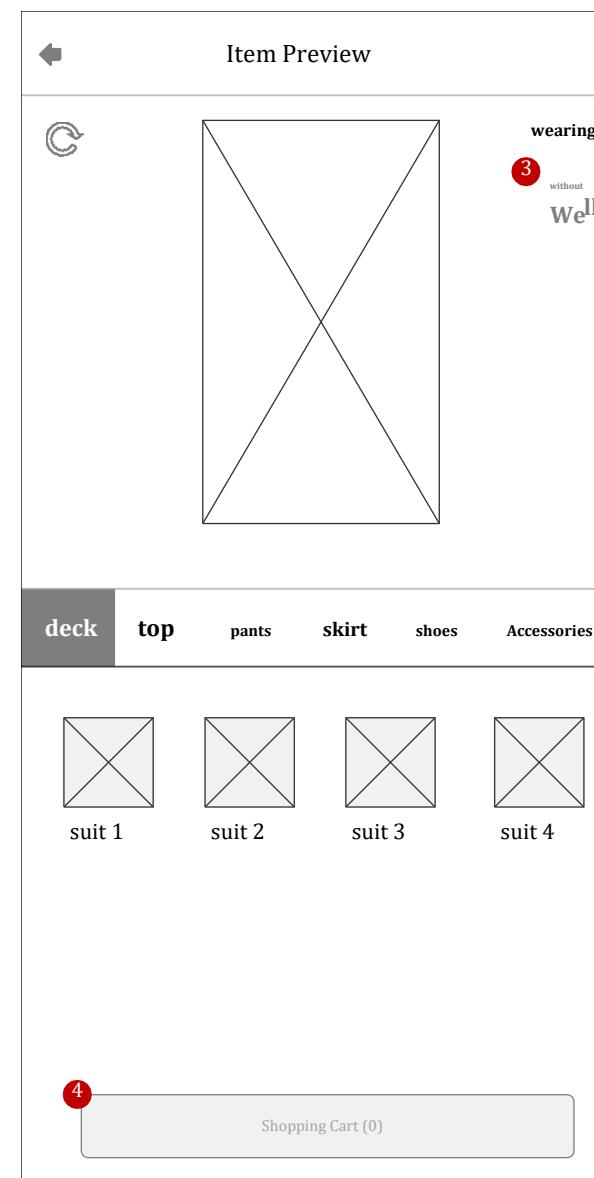

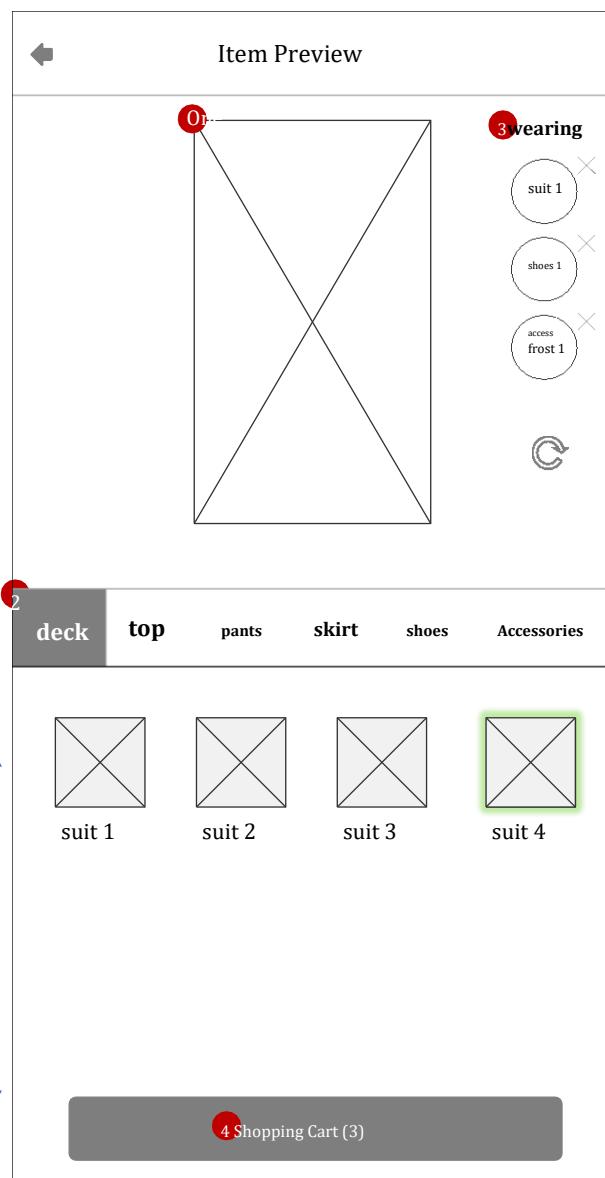

- Expose the item you are currently wearing
- Print "None" text when not worn
- When the X button is selected, it is displayed in the list of items being worn and in the shopping cart. Deleted and the preview changed to the previously worn outfit

3

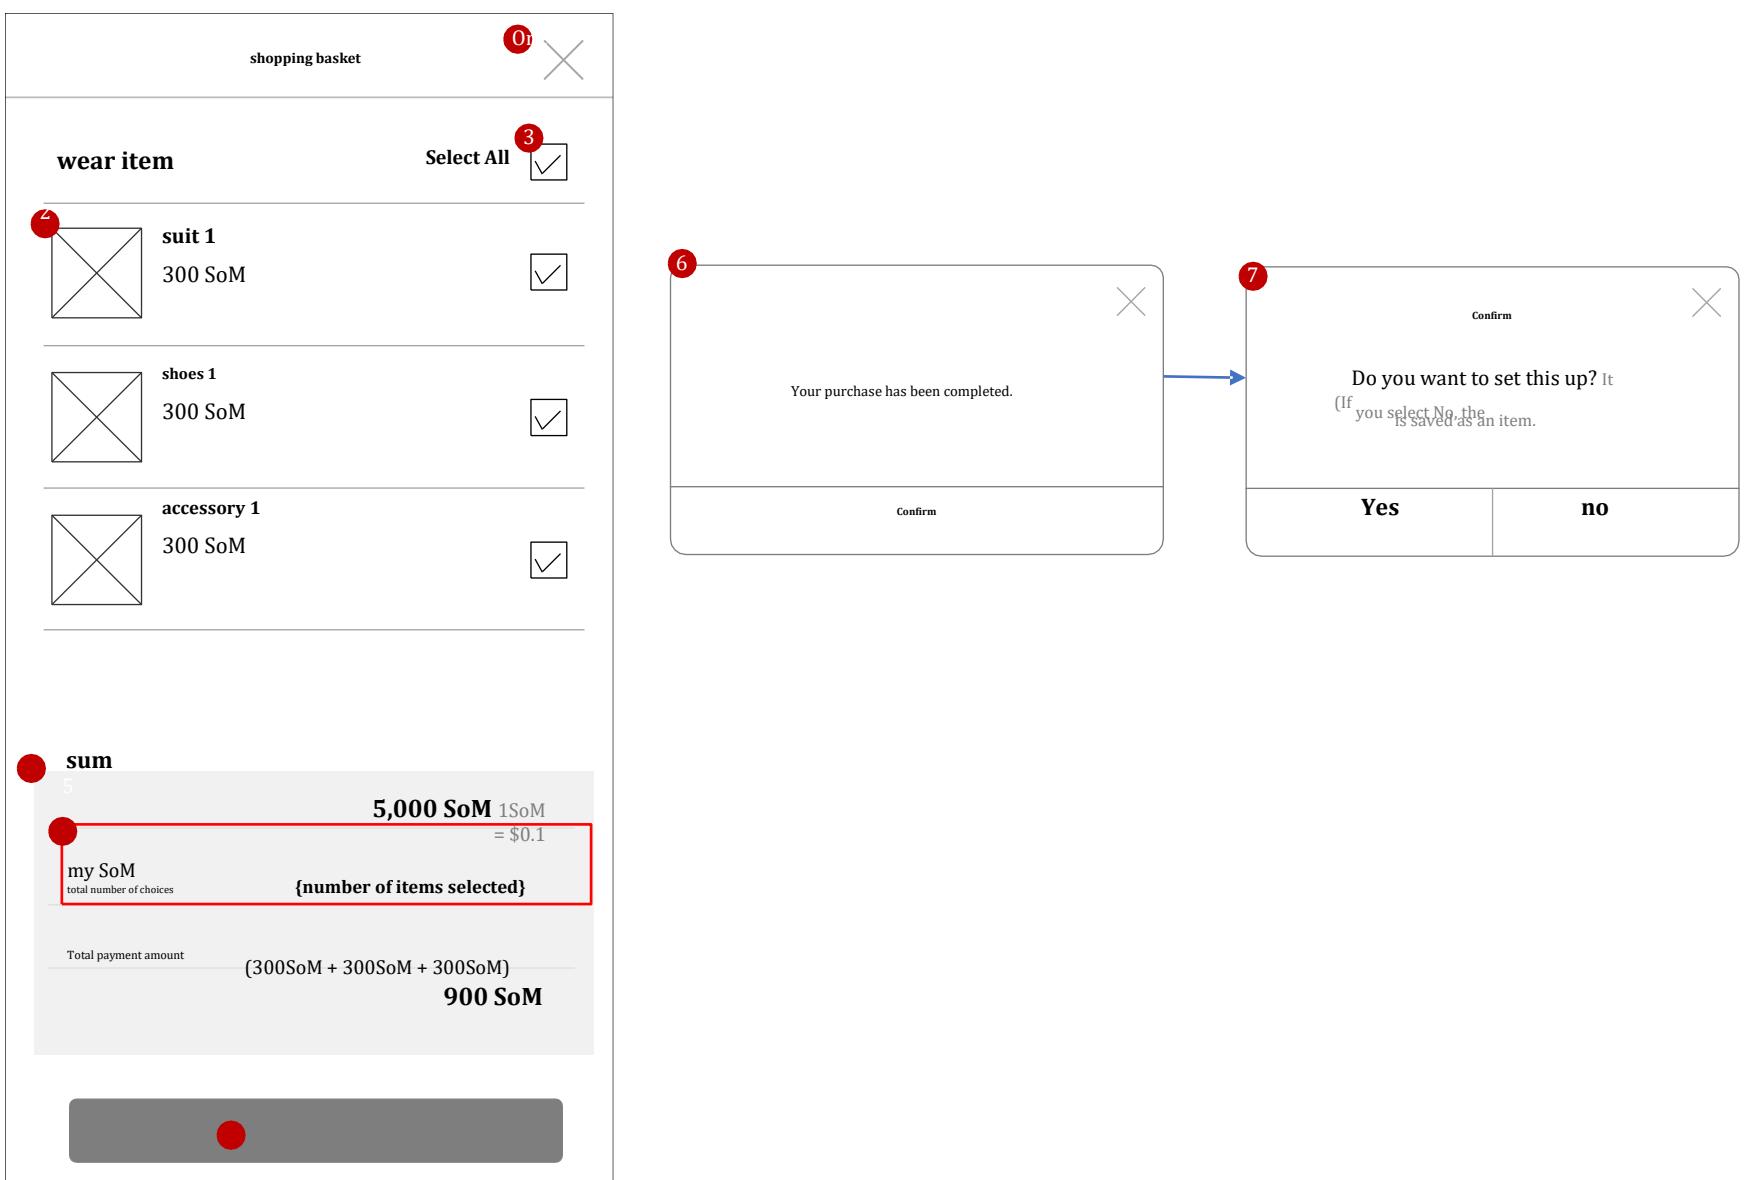

**shopping cart button**

- Only items that are being worn are added to the shopping cart
- Deactivation if there is no item while wearing
- Prints the number of items worn together on the button
- Move to shopping cart screen when selected
